Meeting notes:
-Konstantin communicated that we have approximately 3 weeks left to complete the project
-He advised not to spend too much time on documentation like analysis class diagrams and entity relationship diagrams, as these would not directly contribute to our mark for the project
-He also expressed that we should prioritise the development of the GUI (he suggested that we have 1 person work on the GUI while 2 people work on the back-end functionality)

-Team members have no questions or concerns
-Coach Meeting 4 is to take place on Tuesday 26th March 2024 at 12:00 (online)
